[57] ABSTRACT

PROBLEM TO BE SOLVED: To enhance the deodorizing capability of an air-conditioning unit.

SOLUTION: In the air-conditioning unit 11, a dust-collecting filter 17, a deodorizing filter F carrying a photocatalyst and an adsorbent, and an ultraviolet lamp 18 exciting the photocatalyst are arranged in that order from the upstream side and a light storage material 20 for exciting the photocatalyst by storing the light energy of the ultraviolet lamp and emitting light is arranged in the vicinity of the ultraviolet lamp.
